A measuring mat for the standing long jump, also called the standing broad jump. The mat is 350 cm long, 90 cm wide and 4.5 mm thick. A take off line with footprint markings sits at one end, and the printed scale runs from 50 cm to 300 cm, numbered every 5 cm with 1 cm marks, so you read the distance straight off the mat instead of laying out a tape for every jump. The mat is a layered cushion with a textured anti-slip underside. Use it in sports shoes only: the printed top is textured but semi-smooth, so avoid sweaty feet. No bag is included.
