

## GPS Tracker With Vest (Outdoor Use Only)

Category: Testing

Product ID: IS24

[https://www.isaansport.com/testing/gps-tracker-with-vest-\(outdoor-use-only\).php](https://www.isaansport.com/testing/gps-tracker-with-vest-(outdoor-use-only).php)

Collect data for individual athletes or a full team (using additional trackers). Compare between athletes, or compare over time. Find out where each athlete needs improvement, and see if they're progressing over time.

### Specifications

|                               |                                                                                                                                     |
|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| <b>App</b>                    | Action Tracer, free on Google Play and the App Store; the tracker pairs over Bluetooth                                              |
| <b>Recording Memory</b>       | 2 hours across up to 15 recordings, then overwrites                                                                                 |
| <b>Metrics</b>                | Heatmap, sprint vectors, speed graph, total distance, maximum and average speed, sprint time, maximum acceleration and deceleration |
| <b>Data Export</b>            | Excel .xls and TCX                                                                                                                  |
| <b>Charging</b>               | Magnetic cable to the back of the tracker; charge level shows in the app                                                            |
| <b>What's Included</b>        | Vest, Tracker, Carry Case, USB Charging Cable, App                                                                                  |
| <b>Colour</b>                 | Black                                                                                                                               |
| <b>Battery Life</b>           | 6-8 Hours                                                                                                                           |
| <b>Maximum Recording Time</b> | 2 Hours (Before Requiring Syncing)                                                                                                  |
