Recording Stand with Weighted Base

Category: Testing
Product ID: IS47
https://www.isaansport.com/testing/recording-stand-with-weighted-base.php

A phone stand on a round weighted base, for filming a sprint, a jump or a drill with a stable and repeatable angle, without having to hold the phone. The base is less of a trip hazard than tripod legs, and the base is heavier and more stable than regular tripod stands. The whole stand weighs 3.3 kg and stands on a round base plate 25 cm across in place of three legs, so it takes up a small circle of floor.

Specifications
